- MO workflow
- Admin control

TA journey

Profile, CV upload, search, save, apply and track progress.

MO workflow

Post vacancies, compare applicants, and record outcomes fast.

Admin control

Monitor workload, detect clashes, and rebalance assignments.

Backlog-led release plan visualised in the prototype

Sprint 1 · Must-have

Profiles, jobs, apply, post, admin summary

Sprint 2 · Workflow

Status tracking, CV autofill, review and decide

Sprint 3 · AI layer

Match score, missing skills and overload flags

Backlog release plan visualised here

TA Dashboard

Cleaner card spacing removes overlap while keeping recommendations, saved jobs and reminders.
